

**GLP-1**

Our GLP-1 weight loss medication program is a comprehensive 12-week commitment designed to help you achieve your health goals with professional support and flexibility. The program begins with a personalized intake appointment to assess your goals and determine eligibility. You can choose between convenient weekly in-office injections administered by our trained professionals or have the medication delivered to your home for self-administration, with all necessary guidance provided. Throughout the program, you'll have monthly appointments with our Nurse Practitioner, either in-office or via telehealth, to monitor your progress, answer any questions, and ensure your success. All medication, supplies, and ongoing support are included, making it easy and safe to start your weight loss journey with us

**12 WEEK PROGRAM**
